DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5, 6, 7, 10, and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent number 4,070,772 to Motomura, et al..

Motomura describes the claw or scraper blade (14) fitted to one end of a rock breaker with a tool (25).

Re claim 2: see figure 11—the tube is 3 segments between 16 and 16, and below 25.

RE claim 10: the noncircular shaped socket is 6.

3. Claims 1, 10, 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Schaeff (U.S. Patent number 4,602,821). Schaeff describes the claw or scraper blade (40) fitted to one end of a rock breaker with a tool (24).

4. Claims 1-7, 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Mazon U.S. Patent number 5,507,051. Mazon describes the claw or scraper blade (30) fitted to one end of a rock breaker with a tool (50).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claim 5 lacks antecedent basis for "the tube"
